

Commercial Lift Bags are especially suited for remote locations or for deployment from small craft.

SUBSALVE USA Commercial Lift Bags are capable of being used by a single diver. These heavy-duty lift bags are ideal for use in light salvage, object recovery, construction, and scientific applications.

Designed to be portable, yet tough enough to last a lifetime.

Manufactured from heavy-duty nylon fabric coated with urethane for:

- High strength
- Very resistant to abrasion
- Not affected by most petro-chemicals
- UV resistant

The Commercial Lift Bags have 6000 lb. rated strength, resin-treated nylon lift straps sewn directly to the bottom of the lift bag, and has a safe working ratio of 6:1.

We can produce custom sizes and designs to meet your special requirements.

All *SUBSALVE USA* Commercial Lift Bags are equipped with:

Our own Plunger Dump Valve (which provides air control with a push-button knob at the top of the bag and a lanyard at the bottom of the bag)

1/4" NPT inflation port (for remote filling or multiple bag manifolding or to install our optional brass quick disconnect)

Model	Lift Capacity	Diameter	Overall Height	Packaged Cubic Dimension	Weight
C 500	550 lbs 250 kgs	2' 5" 0.74 m	3' 7" 1.07 m	15" x 11" x 7" 38m x .28m x .18m	12.0 lbs 5.45 kgs
C 200	220 lbs 100 kgs	1' 10" 0.56 m	3' 0" 0.92 m	15" x 11" x 7" 38m x .28m x .18m	7.0 lbs 3.18 kgs
C 100	120 lbs 55 kgs	1' 4" 0.41 m	2' 6" 0.77 m	14" x 10" x 6" 36m x .26m x .15m	5.0 lbs 2.27 kgs

Each bag leaves our manufacturing facility equipped with all necessary hardware and is ready for immediate use.

Each *SUBSALVE USA* lift bag is tested prior to shipping, and must meet rigorous U.S. Department of Defense requirements.

Commercial Lift Bags are available in three sizes: 100 lb., 200 lb., 500 lb.
